SOFTWARE DEVELOPER

PROFILE

I'm a passionate frontend developer with industry experience building web and mobile applications. I like to experiment with new technologies and frameworks to improve my skills. Specialized in JavaScript, experienced in working with React, React Native and AngularJS.

EDUCATION

VEDIUS IT TRAINING CENTER, CRACOW

EDL CERTIFICATE - WEB EDITING

2017

ZSP TEMPUS, INOWROCŁAW

TECHNICIAN DEGREE

2014

WORK EXPERIENCE

WORKWAVE, REMOTE

SENIOR SOFTWARE DEVELOPER

2022 - PRESENT

Designed and led the development of a new mobile app for task management on both iOS and Android platforms, utilizing React Native

- and incorporating modern UX principles. Successfully delivered a feature-rich mobile app, resulting in a substantial increase in user engagement and overall system efficiency.

Mentored and guided junior developers, fostering a collaborative team environment. Conducted comprehensive code reviews to ensure superior code quality, while also supervising seamless cooperation between the frontend and backend teams.

- Proactively identified opportunities to enhance the web application, leading to the creation and successful implementation of new features that significantly improved user satisfaction.

Demonstrated exceptional problem-solving skills in troubleshooting and

- resolving complex bugs and issues, ensuring a stable and reliable user experience.

TEAM SOFTWARE - CRACOW, POLAND

SOFTWARE DEVELOPER

2020 - 2022

Played a critical role as one of two frontend developers, completely

- rewriting a legacy, 20-year-old employee management desktop application into a high-performance web application.

Utilized JavaScript, React, Redux, and Redux-Saga to create a

- cutting-edge product, leading to a notable increase in product sales and customer satisfaction.

THE MINISTRY OF IDEAS - CRACOW, POLAND

FRONTEND DEVELOPER

2018 - 2020

Joined as a proactive junior frontend developer and swiftly progressed to a mid-level position due to consistent performance and dedication.

- Played an integral role in the ongoing development and bug-fixing efforts for a complex loss prevention web app, effectively enhancing its performance and usability.
